### **TIPS!!**

#### **SPOTLIGHT ON ECONOMIC**

**DEVELOPMENT:** Is your airport being recognized as the asset it is? Does everyone within the community realize the value of your airport? Is your airport being used effectively to recruit new businesses to your area?

Bring along your Economic Development professionals or others who may be interested in these tips. Everyone is welcome!

Wednesday is a "don't miss" day for both airport and economic development professionals! Beginning with the keynote speaker and continuing through the general and breakout sessions, there will be tips aplenty for showcasing your airport in the best light.

**OTHER TOPICS:** Are you interested in bringing WiFi to your airport? Are you up-to-date on the latest in airport security? Are you hoping to improve your instrument approach procedures? Breakout sessions have been designed to help answer these questions and more.
